CCNMES2103. NMES (NEUROMUSCULAR ELECTROSTIMULATION) WITH HEIKO VAN-VLIET

CCTMJ2104. THE TEMPOROMANDIBULAR JOINT DEMYSTIFIED WITH DR. GUY ZITO

THE
CAMPUS

SEMINARS / COURSES OVERVIEW

SEMINARS / COURSES DESCRIPTION

These comprehensive seminars and courses provide an in-depth, multidisciplinary approach to common musculoskeletal conditions by regional anatomy, providing a thorough overview in the evaluation and management of injuries using best evidence-based practice.

Physiatrists, orthopedists, radiologists, physical therapists and other sports medicine professionals with expertise in each topic will discuss both non-operative and surgical management of sports injuries, including the role of diagnostic imaging and interventional procedures, and rehabilitation to restore function, with the goal to facilitate safe and accelerated return to play.

The seminars / courses present an interdisciplinary approach to conservative care, including new and emerging treatments to synthesize learning.

REASONS TO ATTEND

Unique to this program is its immersive, fast-paced, 360-degree educational experience. You will learn about changes and advances in sports medicine from three critical, interrelated perspectives:

- Physical Medicine and Rehabilitation
- Musculoskeletal Radiology
- Orthopedics

Educational highlights include:

- The most effective methods, both surgically and non-surgically, to manage injuries to tendons, joints, muscles, and ligaments in athletes vs. non-athletes
- When and how to utilize cutting-edge regenerative sports medicine treatments
- Updates for regenerative biologics and joint preservation techniques
- Advances in the management of MSK injuries and methods to facilitate return to sports
- Practice recommendations to optimize care of the female and/or young athlete
- Optimized approaches for interpreting images and making decisions about operative versus conservative management
- Updates in best practice using the pre-participation physical evaluation
- Clinical strategies to account for age, gender, and patient conditions
- Management of chronic tendon disorders

The format is engaging and attendees are encouraged to pose questions in sessions and workshops as well as one-on-one with the national and international experts who will be delivering the updates and education at this seminars.

GENERAL INFORMATION

SEATING IS LIMITED

Please note that seating is limited. To be assured a spot in this special program, early registration is advised.

Registration, Payment, Confirmation and Refund Policy

Registrations for THE CAMPUS | CME programs are made via our secure online registration system. To register for this course, please scan the QR to access our Courses/ Workshops Registration site, if you are coming from outside China, please send us an email to:

thecampus@theclinic.international

At the end of the registration process, a CNY100 non-refundable processing fee will be added to your registration, and you will have the choice of paying by credit card (Visa, MasterCard), or wire transfer in CNY. All fees shown in CNY.

Upon receipt of your paid registration, an email confirmation will be sent to you. Be sure to include an email address that you check frequently. Your email address is used for critical information, including registration confirmation, evaluation, and certificate.

Refunds, less an administrative fee of CNY500, will be issued for all cancellations received two weeks prior to the start of the course. Refund requests must be received by email. No refund will be issued should cancellation occur less than two weeks prior. "No shows" are subject to the full course fee and no refunds will be issued once the seminar has started.

A photograph of a modern interior space. The floor is made of wide, light-colored wooden planks. On the left, there is a dark, vertical slatted wall. In the background, there is a large window with a dark frame, and a dark wooden cabinet or bench is positioned against the wall. The ceiling features exposed pipes and wooden beams. The overall atmosphere is minimalist and industrial.
